

From One Exhausted Mom to Another

If you know a mom struggling with baby sleep — share this.

WHAT THIS BOOK IS

- Written by a real mom of 6 (including twins) — not a sleep clinic.
- The exact 7-night plan that worked for every one of her babies.
- Honest, warm, and addresses what nobody else does — Night 3, breastfeeding, twins, single parents.

WHO IT'S FOR

The mom on Night 47 of 45-minute naps.

The mom whose baby will only sleep on her chest.

The mom who tried sleep training before and gave up.

The mom who's googling "is it safe to sleep standing up" at 2am.

WHAT MAKES IT DIFFERENT

1 THE 7-NIGHT PLAN

Day-by-day what to expect — so you know it's working before it feels like it's working.

2 THE EXTINCTION BURST

Nobody talks about Night 3. We do. The night most parents quit — and why you shouldn't.

3 BUILT FOR REAL FAMILIES

Twins, NICU graduates, breastfeeding moms, single parents. Real life, real plans.

Sleep, Baby. Please.
